Introduction

Pioneers in the field of Industrial Automation Services

Automat has established itself as a Single Source Service Point organization, catering to every requirement in the field of Industrial Automation. From High End OEM Repairs, to Supply of Spares, we at Automat ensure that all your maintenance issues are catered to.

We at Automat comprise of a team of highly skilled and qualified personnel in their respective areas of specialization. The core team comprises of the Engineering Department, the Operations Department, and Customer Service, well knitted together by the Management in a structured and transparent manner to provide our customers the highest standards of service.

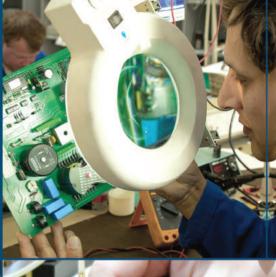

Being customer centric, we build strategic partnerships through our global suppliers and supply chain to provide Excellence in Service, Exceptional Quality, Affordable Pricing and Innovative Solutions. Our Network of OEM suppliers, sales offices and extensive distribution network, places us as one of the leading service providers, to all Automation requirements.

Aggressive in our approach towards research and development, we ensure in providing solutions to Re-manufacturing, System migrations and Turn Key solutions using the latest in cutting edge technology. This is what we call...**Engineering Revived!!!**

Our Services

- Automation Repairs
- Supply of Spares
- System Upgrades
- Industrial Training
- Turn Key Solutions

Why Choose Automat

- 24 X 7 Free Collection & Delivery
- Free Assessment & Quote
- Comprehensive Testing Facility
- Flexible Warranty Options
- Minimise Failure Cost
- Huge Spares Inventory
- Extensive Knowledge Base

Drives

AC / DC / Inverter / Soft Starter / VFD

ABB

- ACS Series
- Sami Start

Allen Bradley

- · Power Flex 4, 40
- Power Flex 525
- Power Flex 700 Series
- 1336 Series

Parker SSD

- 605 Series
- 650 Series
- 690 Series

Emerson

- Unidrive
- · Commander Series

Danfoss

- VLT Series
- FC Series

Lenze

- sustantino o
- 7800 Series
 8200 Series
- 9300 Series
- SMD Series

Schneider Electric

- Altivar Series
- Altistart Series
- S/E/M Flex Series
- · Power Guard

SEW

- Movidyn
- Movitrac
- · Movidrive

Siemens

- Micro Master
- Midi Master
- Simo Drive
- Simovert
- Master Drive MV/VC/FI
- · Sinamics
- Simoreg

Vacon

- Vacon 10, 20 Series
- · NXL.NXS
- NXP Air Cooled

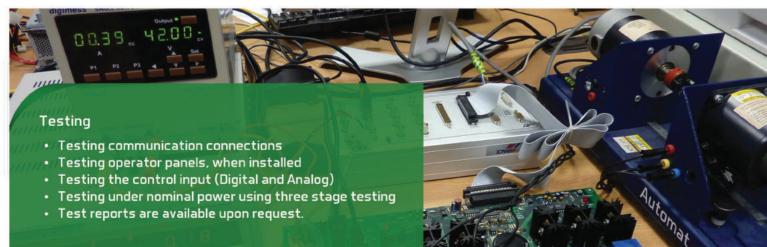

Yaskawa

- CIMR Series
- A1000/V1000/ Series
- · L100A / L100V
- · T1000

Expertise in repairing

- AC Drives
- DC Drives
- Soft Starters
- Inverters
- VFD

Servo Drives

Siemens

- Sinamics
- Simodrive 610
- Simodrive 611
- Simodrive 650
- Simodrive 660
- Simodrive 690

Baumuller

- Bus 3
- · Bus 6 VC
- · Analog Drives
- · Digital Drives

Indramat / Rexroth / Bosch

- · ANAX
- DIAX 1/2/3/4
- · DKR
- Ecodrive 01/03
- Indradrive
- · RAC

Kollmorgen

- 60WKS
- AKD/AKD Basic
- AKD PDMM/N

- Alpha I
- · Alpha iS
- Spindle Drives

Lenze

- 9400 Highline
- Servo Inverter i700
- Servo Drives ECS

Allen Bradley

- Ultra Servo
- Kinetix Series

Expertise in repairing:

- Power Section
- Interface modules
- Positioning modules
- Industrial networks
- Feedback
- 1/0

Testing:

- Testing of interface modules
- Testing of communication connections
- Testing nominal power, (if servo motor is available)
- Testing the feedback of the drive using an encoder simulator
- Testing of I/O (when installed)

Parker

- Vix
- · Compax 3 / 3M
- · Aries Controller
- Gemini GV6/GV6K
- Compax OEM TIØX

Input / Output Module, CPU's

Siemens

- ET Series

- IPPC 9151/9171

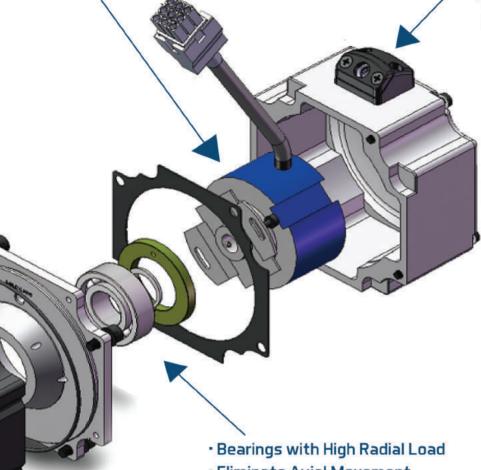

Servo Motor Repair

- · Encoder Alignment Incremental Absolute
- · Feedback Devices Resolver, Tacho, Hall Sensor
- · Recovery of Detached Code Wheels
- · Optical System Positioning
- · Setup of Encoder / Resolver Locking Angles
- · Detect Signal Distortion sin/cos,TTI,EnDat, BISS&SSI
- · Signal Amplitude Correction

- · Refurbishing Damaged Housing
- · Painting of Rugged Metal Cover
- Preparation of Encoder and Power Connectors

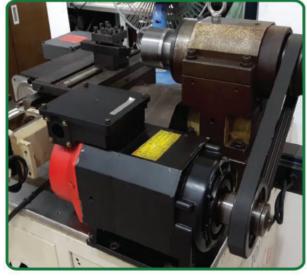

- · Eliminate Axial Movement
- · Bearing Collar Correction

Accuracy

vith Precision Balance

Encoder

We repair Encoders and other Feedback devices by : Heidenhain, Hengstler, SICK, Fanuc, Siemens, Tamagawa, LTN and many more.

OPTICAL SYSTEM DIAGNOSTICS

SETUP OF RESOLVER & ENCODER POSITIONS

CLEANING &
MAINTENANCE OF OPTICS

REPLACEMENT OF ENCODER & RESOLVER BEARINGS

TESTING USING MOTOR & DRIVE

SIGNAL LEVEL MEASUREMENT

ENCODER PROGRAMMING

CORRECTION OF SIGNAL DISTORTIONS

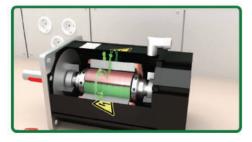

TROUBLESHOOTING WITH MANUFACTURER'S SOFTWARE

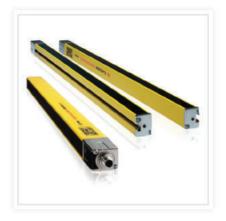

Sensors

- Diagnostic Test
- Inspect PLS scanner
- · Check communication section
- Check for PCB fault
- Mechanical damage
- · Align optical sensors
- Verify with Laser programming.

Gear Motor repair

- Check windings
- Megger test
- Check for shaft and bearings
- Lubrication
- Oil seal to be replaced
- Gear teeth to be refurbished
- · Check for Mechanical failure

CNC Controllers

Expertise in repairing:

- Power supply
- Control units
- Operator panels
- Interface boards
- Positioning modules
- Industrial networks
- Feedback and I/O

Testing:

- Testing communication connections
- Testing parameter memory
- Testing I/O (when installed)
- Testing monitors in combination with the control unit
- Testing safety boards
- Endurance tests
- Testing extra encoder input connections with an encoder simulator

GE Fanuc

- Alpha 16/18/21
- Alpha Ai16i/18i/21i
- Series Ø / 15 / 6
- Series 16T
- Series 211-TB

- 802 D SL
- 840 C
- · 840 D / D SL
- Sinumerik

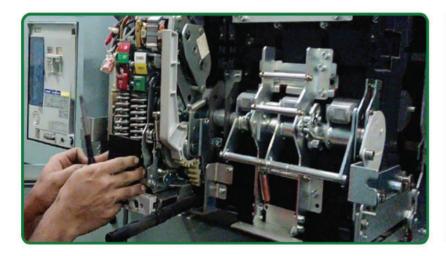

Switch Gears

- Repairing Services and Testing of Air Circuit Breaker (ACB)
- Repairing Services and Testing of Vacuum Circuit Breaker (VCB)
- Retrofitting of Air Circuit Breaker (ACB)
- Control Circuit Modification & Upgrade
- Testing of Protection Relays
- Testing of Earth Pits

Industrial UPS

- Inspect / Replace Battery pack
- Refurbish charging circuit
- Inspect Standby mode
- Inspect Bypass mode
- Check overload capability
- Refurbish Inverter section

Live Panel Cleaning

NWK99

Prevents economic loss and safety accidents caused by the dust and foreign substances generated during operation

Awarded multiple symbolic Certificates from Korean government

Performance Certification: 2011. 4.5 (the Small & Medium Business dministration)

Eco Label Certification: 2006.11.6 (Ministry of Environment/Environmental Industry & Technology Institute)

NEP Certification: 2008.3.13 (Ministry of Knowledge Economy/Agency for Technology and Standards)

Patent Certification: 2008. 2. 1 (Patent office)

NWK 99 Features

Prevention Maintenance Live Panel Cleaning Cleaning available while equipment in operation Non conductive material to be used for 50kV

Stability Non-corrosive material

No damage for PCB and electronic components

Economical | Cleaning in short time

Strong blowing force to remove the dust at critical point easily & quickly

Technology | Prevent static and noise

Neutralize electrostatic ion to avoid harmful static and noise generated by the compressor or the vacuum cleaner

Environmental Friendly

Respiratory disease prevention (low-toxic)

Prevent respiratory diseases by not allowing fugitive dusts

Effect

Application

- Factory, Manufacturing plant, Shipyard, Facilities and Malls
- Elevator (Inverter)
- National transportation network (railway, highway, tunnel signal & etc.)
- Domestic and overseas, where power supply cannot be switched off
- National power grids (substations, underground switches, ground switches, power stations & etc)
- National networks (repeaters, base stations, IDCs, military communications & etc)
- · IDC Center (UPS, Server)
- Generator alternator

Electronic Repair

- Free Collection / Delivery / Assessment
- Component Level Repair
- Refurbishment of Industrial parts
- Warranty on all Repairs
- · Reverse Engineering

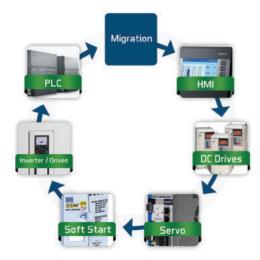

- Stockists of over 50,000 Spares of Major OEM
- Categories of Spares
 - > Brand NEW OEM
 - New Surplus
 - > OEM Refurbished
 -) Used
 - > Obsolete
- Service Exchange offered
- Warranty offered on all Spares Supplied

System Upgrades

Migration

- Upgrade obsolete system
- Revive obsolete production lines
- Maximize manufacturing output
- Effectively manage / upgrade bottle-necks in production lines

Conversion

- Convert DC system to AC system
- Obsolete AC drives to current systems
- Improve production efficiency
- Better energy saving
- Maximize longevity of existing production lines

Port & Harbour

- Lowest turnaround time
- Efficient collection & delivery
- Quick assessment & quote
- Emergency service available

- · Reliable, Flexible & Efficient
- Huge obsolete spares inventory
- Single source service provider
- Online job tracker

- No cure; No pay
- Reduce operation / maintenance cost
- Revive obsolete assets
- Maximize savings against OEM prices

- E-waste management
- Volume Reduction
- Inventory management
- Advocates "REDUCE-REUSE-RECYCLE"
